Operations in 1933: Detailed Record of Production.—The total value of the products of the Canadian fishing industry in the calendar year 1933 was \$27,558,053, as compared with \$25,957,109 in 1932 and \$30,517,306 in 1931. In Tables 6 and 7 will be found statements for the whole of Canada of each fish and fish product marketed in 1933, with comparative figures for the preceding year—Table 6 dealing with sea fish and Table 7 with products of the inland fisheries. In Tables 8 and 9 the numbers of the fish-canning and -curing establishments are shown, together with the materials used and values of the products.
