¹Includes a small production from Prince Edward Island. ²Includes a production from the Northwest Territories in 1932-34. ³The figures for 1932 have been revised since the publication of the 1933 Year Book. ⁴Figures for 1934 are subject to revision.

The quantities and values of the minerals produced in each province during 1932 and 1933 are shown in Tables 5 and 5A. These tables show the different minerals which make up the mineral production of each province and also the particular province or provinces which contribute to the production of each mineral in Canada.

5.—Mineral Production of Canada, by Provinces, calendar year 1932.

NOTE.—The mineral production of Yukon and Northwest Territories during the calendar year 1932 was as follows, in quantities and values:—gold 40,608 fine oz., \$953,438 (including premium); lead 3,853,327 lb., \$81,444; silver 3,053,188 fine oz., \$966,994; and coal 808 tons, \$3,491; total \$2,005,367.
