British Columbia.....	-	129,665,431	9,845	11,455,946	2,557,066	29,464,365
Yukon.....	-	12,159,207	309	677,194	41,835	1,516,355

<sup>1</sup>This figure not given by provinces in recent years. <sup>2</sup>Gross value less freight and treatment charges and less value of ores charged in the case of smelters. <sup>3</sup>Electricity was not included in 1921 and 1922.

<sup>4</sup>Fuel and electricity used for metallurgical purposes and not included above consisted of: bituminous coal from Canadian mines, 244,701 tons valued at \$1,657,991; imported bituminous, 109,005 tons at \$578,272; coke, 129,605 tons at \$1,165,432; fuel oil, 7,218,294 gal. at \$327,775; wood, 5,489 cords at \$28,963; manufactured gas, 45,886 M cu.ft. at \$4,998; electricity, 380,331,833 k.w.h. at \$1,232,104; and other fuel at \$22,079; total value, \$5,017,614.

**The Principal Mineral Industries.**—A summary of the industrial statistics of the principal mineral industries operating in Canada in 1932 and 1933 is presented in Table 7. Coal mining has the largest labour force and the largest labour bill. In fact, in the years 1932 and 1933 salaries and wages in coal mining amounted
