

Yukon.—The production of silver in recent years from Yukon has been derived chiefly from the silver-lead ores exported from the Mayo district. The Treadwell-Yukon Co. ceased mining at Keno Hill in the autumn of 1932 and transferred its operations to the Elsa claim on Galena Hill. High-grade ore was mined and shipped from this mine in 1933 after which the camp was abandoned and operations concentrated on the old Silver King mine.

Statistics of the quantities and values of silver produced in Canada are given for the years since 1911 in Table 12, while statistics of the quantities and values produced in the various provinces are given for 1911 and subsequent years in Table 13.

12.—Quantities and Values of Silver Produced in Canada during the calendar years 1911-34.

NOTE.—For figures for the years 1887-1910, see p. 361, 1933 Year Book.

¹Preliminary figures.

13.—Quantities and Values of Silver Produced in Canada, by Provinces, during the calendar years 1911-34.

NOTE.—For the years 1887 to 1910, see Canada Year Book, 1916-1917, p. 271. Nova Scotia, Saskatchewan and Alberta have also shown a small production in recent years, production during 1932 and 1933 being shown in Tables 5 and 5A of this chapter.
