

(Manitoba \$13,011,468, Saskatchewan \$2,256,091 and Alberta \$8,437,040). Butter and cheese comprised the third largest group, with an output valued at \$15,754,928, followed by central electric stations \$15,693,275, railway rolling-stock \$12,014,633, petroleum products \$11,058,020, etc.

The order of the leading industries is somewhat different in each province. In Manitoba, the leading industries, with their gross values of products in 1932, were as follows: slaughtering and meat packing \$13,011,468, railway rolling-stock \$8,936,011, central electric stations \$6,534,141, flour and feed mills \$6,443,072 and butter and cheese \$6,239,213. In Saskatchewan the leading industries were: flour and feed mills \$9,468,912, petroleum products \$5,694,731, butter and cheese \$5,000,690 and central electric stations \$4,478,110. In Alberta, slaughtering and meat packing, with an output of \$8,437,040, was the leading industry. This was followed by flour and feed mills \$8,334,777, petroleum products \$5,363,289, central electric stations \$4,681,024 and butter and cheese \$4,515,025.

The importance of these industries, based on such natural resources of the Prairie Provinces as grain-growing and cattle-raising areas, is evident.

16.—Principal Statistics of the Leading Industries of Manitoba, Saskatchewan and Alberta, 1932.

NOTE.—Other leading industries, statistics of which cannot be given because there are fewer than three establishments in each industry, are: in Manitoba, non-ferrous metal smelting and refining and, in Alberta, sugar refining and wood preservation. The statistics of these industries are included under the heading "all other leading industries" in the case of Alberta.

MANITOBA.
