Statistical Tables of Trade by Countries.—Statistics showing the course of import and export trade during the latest five fiscal years, by countries with which Canada carries on trade, will be found in Tables 19 (imports) and 20 (exports). Table 21 shows by countries the values and percentages of goods imported into and exported from Canada *via* the United States for the latest two fiscal years.

A series of tables showing Canadian trade in principal commodities with the leading countries with which she trades (other than the United Kingdom and the United States, which are exhaustively dealt with in Tables 12 and 13) followed Table 21 in the 1931 Year Book. These tables have since been omitted to economize space. They will be found in the Condensed Preliminary Report on the Trade of Canada 1934, (pp. 153-188). Historical tables showing our trade with leading countries in each year since Confederation, will be found on pp. 13-19 of the Annual Report of the Trade of Canada for 1934, both volumes published by, and obtainable from, the Dominion Bureau of Statistics.
