

The interprovincial and export movement of live stock in 1933 shows increases in all classes except hogs. Total shipments in 1933 with comparative figures for 1932 in parentheses were as follows: cattle 322,097 (261,915); calves 97,070 (91,165); swine 1,038,576 (1,121,760); and sheep 186,702 (153,259). For both years Alberta was the largest shipper in the aggregate and also the largest shipper of hogs and sheep. Saskatchewan led in cattle shipments and Ontario in shipments of calves.

The marketings of live stock through stockyards, by direct shipment to packers, or by export according to provinces of origin for the calendar year 1933 are given in Table 15. In Table 16 are given the statistics of the grading of animals from several provinces marketed through the stockyards in 1933.
