Convictions for Drunkenness.—The number of summary convictions for drunkenness in Canada in 1933 was 18,910 as compared with 38,826 as recently as 1929. Maximum figures were attained in the years 1913 and 1914; during the War there was an appreciable reduction and since the War, while figures have fluctuated, they have not approximated former high levels. The decline in the last few years would appear to be at least partly due to the depression. Table 11 shows the number of convictions by provinces and years from 1911 to 1933.

11.—Convictions for Drunkenness, by Provinces, years ended Sept. 30, 1911-33.
