Nativity of Mothers.—In Table 8 will be found for each of the provinces the percentages of legitimate children born alive to Canadian-born, British-born and foreign-born mothers respectively in 1933. For the Dominion as a whole, 76·9 p.c. of the children of mothers whose birthplaces were known had Canadian-born mothers, 9·6 p.c. British-born mothers and 13·6 p.c. foreign-born mothers. It is significant that the percentage of legitimate children born alive to Canadian-born mothers between 1921 and 1933 increased from 42·3 p.c. to 63·0 p.c. in Manitoba, from 36·1 p.c. to 54·7 p.c. in Saskatchewan, from 30·0 p.c. to 46·8 p.c. in Alberta, and from 29·7 p.c. to 51·8 p.c. in British Columbia. Thus more and more of the children of the West are coming within the class of third generation Canadians.

8.—Percentages of Legitimate Children Born Alive to Canadian-Born, British-Born or Foreign-Born Mothers, by Provinces, 1933.

Province.	Nativity of Mothers.		
	Canadian-born.	British-born.	Foreign-born.

Sex of Live Births.—Table 9 shows the number and proportion of live male and female births reported for each province of Canada during the calendar years 1931, 1932, 1933 and 1934, with averages for the five-year periods 1921-25 and 1926-30. The figures for Quebec commence only with the year 1926, when that province entered the registration area, and the totals for Canada are limited in the same manner in consequence. Every province shows an excess of male births for the years
