47.—Exports of Wheat and Flour from the Principal Wheat-Exporting Countries and Imports of Wheat and Flour into the Principal Wheat-Importing Countries, crop years ended July 31, 1934 and 1935.

World Live Stock.—The statistics of Table 48, compiled from data published by the International Institute of Agriculture, show as nearly as possible the world situation with regard to live stock about 1933. For many countries, the figures are the result of careful enumeration, while for others they represent only approximate estimates.
