<sup>1</sup> Based on estimates furnished by the operators of the farms.

The annual revenue of the fur farmer arises from two sources, the sale of animals and the sale of pelts. Table 4 shows the sales of animals by kinds in the years 1926 to 1934 and Table 5 the sales of pelts. During the five latest years the sales of pelts have exceeded the sales of live animals, while in former years the reverse was the case.
