

5.—Detailed Mineral Production of Canada, by Provinces, calendar year 1934.

NOTE.—The mineral production of Yukon and Northwest Territories during the calendar year 1934 was as follows, in quantities and values: gold 38,798 fine oz., \$1,338,531 (including premium); lead 1,786,880 lbs., \$43,536; silver 553,320 fine oz., \$262,611; coal 638 tons, \$2,217; petroleum 4,438 bbl., \$22,188; total, \$1,669,083. Radium and uranium salts were produced in Canada in 1934 from ores mined in the N.W.T., but statistics pertaining to those minerals are not available for publication. For Dominion totals by individual minerals see Table 2.

Mineral.	Nova Scotia.	New Brunswick.	Quebec.	Ontario.	Manitoba.	Saskatchewan.	Alberta.	British Columbia.
