

manufactured in the province, furnished 46 p.c. of the products of pulp and paper mills throughout the country. The gross value of cotton yarn and cloth products from Quebec mills formed 71 p.c., the value of railway rolling-stock 39 p.c., the value of tobacco, cigars and cigarettes 86 p.c., and the value of boots and shoes 57 p.c. of the Dominion totals for these products. Thus, Quebec is an outstanding manufacturing province rather on account of her individual industries than because of the diversification of her industrial activity.

**12.—Principal Statistics of the Forty Leading Industries of the Province of Quebec, 1933.**

NOTE.—Statistics for sugar-refining, which is also one of the leading industries of this province, cannot be published, since there are less than three establishments reporting.
