

Ontario.—Under the system operated by the Ontario Workmen's Compensation Board in Schedule 1, where the liability is collective, 24 classes of industries pay various percentages of their payrolls annually to the Board and escape individual civil liability for accidents and certain specified industrial diseases. The percentage of payroll collected by the Board is graded according to the degree of hazard in the occupation and ranged in 1935 from 10 cents per \$100 of payroll in blue-printing, multigraphing or mimeographing to \$15.00 per \$100 in wrecking of buildings or window cleaning. The average for all classes was \$1.35 per \$100 of payrolls which amounted to \$373,112,000. Certain other industries under Schedule 2, including municipal undertakings, railways, car shops, telegraphs, telephones, etc., are made individually liable to pay the rates of compensation fixed under the Act. Employees of the Dominion or of the province, killed or injured in the discharge of their duty, are by special legislation placed on the same footing as those of private employers of the second class.

Statistics of the benefits awarded and the accidents to workers reported during the first 21 years of the operation of the Act appear in Table 11; 54,298 accidents were *paid for* during the year 1935, including: 231 cases of death, 14 of permanent total disability, 1,291 of permanent partial disability, 25,856 of temporary disability and 26,906 in which medical aid only was provided. These latter are all under Schedule 1, as medical aid in Schedule 2 cases and Crown cases is furnished directly by the employer.
