¹ Revised since the publication of the 1936 Year Book.

Floriculture.—The total value of floriculture and ornamental nursery stock sold in Canada during the years ended May 31, 1935 and 1936, was \$1,689,165 and \$2,784,172, respectively, as shown by Table 27. The figures for 1936 are not strictly comparable with those of former years since they represent returns from a much larger proportion of the industry than has hitherto been obtained.
