

Subsection 3.—Traffic of Electric Railways.

The most important traffic statistics for electric railways are given for each year since 1919 in Table 27 below. Passenger traffic on individual railways is included in Table 26, p. 661. Accidents to passengers and employees are given in Table 28.

27.—Summary of Statistics of Electric Railway Operation, calendar years 1919-35.

NOTE.—Owing to lack of comparability in some particulars, figures prior to 1919 are omitted here but they may be found at p. 681 of the 1936 Year Book for the years 1911-18 and at p. 676 of the 1933 Year Book for years 1901-10.

Year.	Mileage in Operation.		Car Mileage.			Passengers.	Freight.
	First Main Track.	Second Main Track.	Passenger.	Other.	Total.		
	miles.	miles.	miles.	miles.	miles.	No.	tons.

¹ The Toronto Transportation Commission, which operated for the last four months of 1921 only and did not report, would increase this number by about 80,000,000 or possibly bring it up to the 1920 record.

28.—Number of Passengers, Employees, and Others Killed and Injured on Electric Railways, calendar years 1919-35, with Totals from 1894 to June 30, 1919.

NOTE.—Details for years ended June 30, 1900-18, are given on p. 611 of the 1926 Year Book.

Calendar Year.	Passengers.		Employees.		Others.		Totals.
