

ever, include the total expenditures for dredging as some dredging expenditures have been distributed with other items. Both capital and operation costs include expenditures by the former Departments of Marine and of Railways and Canals, now the Department of Transport, and by the Department of Public Works.

11.—Capital Expenditures of the Dominion Government¹ on Waterways and Harbours to Mar. 31, 1937.

NOTE.—The dredging expenditures by the Department of Public Works shown separately at the end of this table cannot be accurately divided between capital and maintenance expenditures. However, since they have been largely for permanent improvements, they are shown here but are not included in the grand totals of capital expenditure. Other dredging expenditures are included in the various items.

Item.	Fiscal Year ended Mar. 31, 1937.	Total to Mar. 31, 1937.	Item.	Fiscal Year ended Mar. 31, 1937.	Total to Mar. 31, 1937.
