

5.—Financial Support of Provincially-Controlled Schools in Canada, by Provinces, 1926, 1931, and latest years.

NOTE.—The receipts shown in the following table do not include any amounts raised by loans, or the sale of bonds or debentures, as all revenue of this nature must be repaid ultimately with money raised by local taxation. With the exception of the Maritime Provinces, for which the information is not available, the total debenture indebtedness of the schools of each province is given annually, thus showing the net increase or decrease per year. Figures for intervening years will be found at pp. 967-969 of the 1937 Year Book.

¹ Includes tuition fees where these are recorded. ² Includes contributions to teachers' salaries in the Maritime Provinces; and in New Brunswick, grants made to schools by the Vocational Education Board. ³ Record not available. ⁴ The Ontario figures include the township grant towards the salaries of rural public school teachers. In the rural municipalities of Manitoba about three-fifths of the school support is equalized by a uniform rate levied over the whole municipality. ⁵ Revised since publication of the 1937 Year Book.
