**Convictions for Drunkenness.**—The number of summary convictions for drunkenness in Canada in 1936 was 28,433, as compared with 38,826 as recently as 1929. Maximum figures were attained in the years 1913 and 1914; during the War there was an appreciable reduction and since the War, while figures have fluctuated, they have not approximated former high levels. Table 11 shows the numbers of convictions by provinces and years from 1911 to 1936. On both a numerical and a percentage basis, increases in convictions for drunkenness were greater in Ontario during 1936 than in any other province.
