Birthplaces of Parents.—Table 6 classifies the children born in 1926, 1936, and 1937 by country of birth of parents, and furnishes some idea to what extent the coming generation of Canadian born will be the offspring of Canadian-born, British-born, or foreign-born parents. The term "country not specified", under country of birth, includes for the father illegitimate births and births of incomplete record, while for the mother it includes births of incomplete record only. Between 1926 and 1937 the percentage of births for which both parents were born in Canada rose from 61.4 in 1926 to 67.8 and 69.5 for 1936 and 1937, respectively.

6.—Numbers and Percentages of Births (Exclusive of Stillbirths) in Canada to Fathers and Mothers Born in Specified Countries, 1926, 1936, and 1937.

NOTE.—Comparable statistics for earlier years, from 1926, will be found in previous Year Books commencing with the 1929 edition.
