..... $	495,632	557,538	588,333	655,656	444,473	−211,183
Saugers ..... cwt.	24,914	48,695	35,044	47,711	82,676	+34,965
..... $	115,635	242,889	155,975	263,579	377,884	+114,305
Hake and cusk ..... cwt.	177,514	246,179	189,756	228,047	229,225	+1,178
..... $	149,211	257,340	221,341	316,200	299,004	−17,196
Scallops ..... gal.	86,344	89,890	133,225	170,762	183,755	+12,993
..... $	161,779	168,415	207,641	334,424	296,529	−37,895
Tullibee ..... cwt.	42,300	44,076	39,721	59,265	55,966	−3,299
..... $	265,204	204,984	225,808	276,464	284,288	+7,824
Perch ..... cwt.	40,945	72,766	72,001	32,258	35,231	+2,973
..... $	242,123	384,389	401,034	268,653	277,220	+8,567
Ling cod ..... cwt.	40,282	47,806	62,841	68,952	42,858	−26,074
..... $	198,570	281,644	326,029	392,147	275,817	−116,330
Clams[2] ..... bbl.	38,281	42,657	68,972	71,637	71,236	−401
..... $	107,522	111,885	173,626	192,910	240,184	+47,274
Swordfish ..... cwt.	17,137	14,091	22,339	17,853	15,020	−2,833
..... $	208,038	176,640	264,097	230,798	238,165	+7,367
Pollock ..... cwt.	52,905	85,087	82,048	126,345	239,845	+113,500
..... $	48,939	95,024	82,745	114,200	222,208	+108,008
Pike ..... cwt.	41,146	37,195	44,761	54,370	51,320	−3,050
..... $	112,312	149,821	181,263	225,589	215,306	−10,283
Oysters ..... bbl.	22,424	24,964	27,113	26,965	24,687	−2,278
..... $	126,533	158,241	178,126	189,922	180,079	−9,843
Eels ..... cwt.	27,404	25,238	25,091	23,440	20,980	−2,460
..... $	148,995	159,674	162,370	153,495	144,277	−9,218
Soles ..... cwt.	10,757	14,469	16,578	24,301	27,456	+3,155
..... $	56,901	71,741	79,246	108,409	123,398	+14,989
Grand Totals[3] ..... $	**27,496,946**	**34,022,323**	**34,427,854**	**39,165,055**	**38,976,294**	**−188,761**
Totals, Sea Fish ..... $	23,433,588	29,241,738	29,175,400	32,951,504	31,984,047	−967,457
Totals, Inland Fish. $	4,063,358	4,780,585	5,252,454	6,213,551	6,992,247	+778,696

[1] Previous to 1934 the totals for halibut included landings at British Columbia ports by United States vessels, whereas from 1934 on the United States landings are excluded from the statistics and the figures cover landings by Canadian vessels only. [2] Prior to 1935 clams and quahaugs were combined.
[3] Including other items not specified above.

Quantities and Values in Recent Years.—The values upon which the figures of Table 5 are based are those of the fish products as marketed, *i.e.*, they include values added by processing such as the canning, curing, etc., of fish products. The indexes of volume, on the other hand, are based upon the quantities of fish reported as caught and landed. The indexes of volume for the individual kinds of fish are calculated directly from the quantities reported in each year but, since the quantities of different kinds of fish are reported in different units, the indexes of volume for the totals of sea and inland fish are calculated from the percentage change, due to variation in quantity from one year to the next, obtained by taking the quantities of the later year at the prices of the previous year. The changes in the indexes each year are, therefore, weighted by the prices of the previous year.
