¹ First reported production in this province or territory. ² Includes a small production from New Brunswick and Alberta. ³ Includes 779,307 lb. valued at \$73,855 produced in Nova Scotia in 1936, and 180,609 lb. at \$23,820 in 1937. ⁴ Preliminary figures.

World Production of Copper.—World production of copper was estimated at 2,300,000 long tons in 1937, as compared with 1,920,000 long tons in 1929, the previous record year. Canada had an output of 236,620 tons in 1937, producing about 12.2 p.c. of the estimated world total and standing fourth among the nations.

10.—Copper Production of the Leading Countries and of the World, 1913-37.

(In long tons of 2,240 lb.)

NOTE.—Figures in this table, except as indicated, are from the Imperial Institute's Statistical Summary.
