

the progress of recovery in Canada. Imports from France have been seriously affected in recent years by the unfavourable economic conditions prevailing in that country, while Germany's restrictive policy regarding trade is resulting in a declining trend in imports from that country. In Table 19 of this chapter will be found the values of imports from all important countries in recent years.

Exports to Principal Countries.—Percentages in Statement XI, as in the import statement, are indicative of the predominance of the United Kingdom and the United States as customers of Canada. Similarity of tastes and standards of living, as well as favourable tariff arrangements, are considerable factors in expanding exports of Canadian products to the other British dominions. Table 20 of this chapter gives actual values of Canadian exports to all important British and foreign countries for the latest five fiscal years.
