Subsection 1.—Statistics of Hospitals, other than Mental.

The total number of various hospitals in operation in Canada during 1937 is given in the first part of Table 1. It is seen that, in addition to 622 public hospitals, there were 241 private hospitals, and 32 hospitals operated by the Dominion Government. The latter were made up of: 8 for War veterans, 4 quarantine and immigration, 1 marine, and 2 leper hospitals under the direction of the Department of Pensions and National Health; 9 military hospitals under the Department of National Defence; and 8 hospitals for Indians under the Department of Mines and Resources.*

Summary statistics of reporting hospitals, which included 99.7 p.c. of all public and private hospitals in 1937, are presented for the years 1933 to 1937 in Table 2, and detailed statistics of staff, facilities, and movement of patients are shown by provinces in Table 3.

* A complete list of all hospitals in Canada, giving name, location, type, and bed accommodation for 1937 is issued by the Dominion Bureau of Statistics.

2.—Summary Statistics of Reporting Public and Private Hospitals in Canada, 1933-37.

NOTE.—Figures include hospitals and homes for incurables, but do not include mental hospitals.
