

**Subsection 5.—Ports of Arrival, Destinations, and Occupations of Immigrants.**

**Ports of Arrival of Immigrants.**—Throughout the greater part of Canada's history, Quebec has been the port at which the greatest number of immigrants have landed. Of recent years there has been a tendency for a larger percentage of immigrants to arrive at the Port of Halifax. This would appear to have been due to increasing immigration in the early spring months before the St. Lawrence is open for traffic. Figures for the calendar years 1931-37 are given at p. 164 of the 1939 Year Book. Statistics on a fiscal year basis will be found in the Report of the Department of Mines and Resources.

**Destinations of Immigrants.**—Table 10 shows that in each of the calendar years shown the Province of Ontario continued to receive the largest number of immigrants, as has been the case since 1905. In 1929 and 1930 Manitoba was in second place, while in the nine latest years Quebec stood second as the immediate destination of new arrivals.
