¹ The totals for manufactures involve duplicated amounts that were deducted in computing the total production for each province. The duplication arises from including in two places a number of industries that may be regarded as extractive or as manufacturing processes. The following are the amounts of the duplication by provinces: Prince Edward Island, gross \$1,423,255, net \$311,495; Nova Scotia, gross \$16,311,965, net \$7,030,802; New Brunswick, gross \$24,429,347, net \$10,832,126; Quebec, gross \$190,346,630, net \$71,463,103; Ontario, gross \$274,703,322, net \$103,564,999; Manitoba, gross \$19,051,014, net \$6,210,711; Saskatchewan, gross \$12,428,308, net \$4,011,427; Alberta, gross \$9,640,279, net \$3,365,056; British Columbia and Yukon, gross \$110,284,521, net \$41,424,833.

² The value of production in Yukon, mainly in the mining and trapping industries (including similar industries of the N.W.T.), was \$4,042,720 gross and \$3,387,894 net in 1936.
