

8.—Acreages, Production, and Values of Principal Field Crops of Canada by provinces, 1938 and 1939, with Five-Year Averages, 1933-37.

NOTE.—The figures for 1938 differ, in many cases, from those appearing in the 1939 Year Book owing to revisions in the estimates. Those for 1939 are subject to revision. Comparable figures for earlier years will be found in the corresponding table of earlier editions of the Year Book.
