The numbers of live stock and of poultry on farms, which were formerly shown in separate tables on a three- and two-year basis, respectively, are now shown on a ten-year basis in Table 14, while average values per head are shown for the six latest years in Table 15. Statistics for total cattle, geese, and ducks, together with total values for each kind of live stock, are given in the "Monthly Bulletin of Agricultural Statistics" for February, 1940.
