Farm Value of Milk Production.—Gross farm income from milk production in 1938, i.e., farm value less milk fed to live stock, amounted to \$144,000,000 while sales income was \$119,000,000, or 82·3 p.c. of the total farm value of milk production.

19.—Farm Value of Milk Production of Canada, 1930-38.

NOTE.—The data in this table are based on the values of whole milk on farms, the haulage costs for milk and cream being deducted from the plant values to obtain the figures shown.

Year.	Manufactured.		Milk Otherwise Used.			Total Value.
	On Farms.	In Factories.	Fluid Sales.	Farm Consumed.	Fed on Farms.	
	\$	\$	\$	\$	\$	
1930.....	20,469,000	60,261,000	40,480,000	12,954,000	6,934,000	141,098,000

Butter and Cheese.—In 1938 creamery butter recorded an increase in quantity of 8·0 p.c. as compared with 1937, dairy butter a decrease of 2·8 p.c., and all cheese a decrease of 7·1 p.c. The cheese output, however, was still greater by 21·8 p.c. than that of 1934. The quantity of dairy butter for 1938 decreased slightly from that of the preceding year, but the increase in the creamery product more than compensated for the decrease. Cheese, on the other hand, recorded a decline of 7·1 p.c. in quantity between 1937 and 1938.
