Revised statistics for the total value of commercial fruit production are given in Table 24. The 1939 figures indicate a reduction of 16.5 p.c. in value as compared with 1938.

24.—Total Value of Commercial Fruit Production in Canada, by Provinces, 1926-39.

Year.	Nova Scotia.	New Brunswick.	Quebec.	Ontario.	British Columbia.	Total.
	\$	\$	\$	\$	\$	\$
1926.....	2,388,100	194,300	754,300	4,253,900	7,278,800	14,869,400
1927.....	2,901,600	234,300	729,600	6,436,900	7,022,700	17,325,100

1939.....	3,018,700	296,900	1,455,300	4,886,900	6,478,100	16,135,900

The Fruit Nursery Industry.—The first commercial nursery in Canada was established near Fonthill, Ont., and this district still continues to be one of the leading centres of the industry. While the Province of Ontario accounts for the major part of the fruit stock output, there are nurseries distributed through all the provinces. The wholesale value of the product sold during the year ended May 31, 1939, showed a decrease of 12.1 p.c. as compared with the previous year.
