¹A slight difference in classification accounts for the difference between these figures and those shown in Table 9.

Exportation of Newsprint Paper.—In the fiscal year 1908, exports of printing paper were recorded separately for the first time, and valued at \$2,833,535. In the fiscal year 1913, when quantities were first shown, Canada exported 146,792 short tons valued at \$5,692,126. For the fiscal year ended Mar. 31, 1939, exports of newsprint amounted to 2,475,399 tons valued at \$107,360,211 and ranked first among the exports of the Dominion. For exports of newsprint and other paper in the fiscal years ended Mar. 31, 1936-39, see Table 12 of the chapter on External Trade.

As early as 1913 Canada led the world with an exportation of 256,661 tons of newsprint. Her exports are now more than nine times that quantity. The following table shows the exportation of newsprint from the 12 principal exporting countries
