

per head of the estimated population of Canada has more than doubled since 1919—an evidence of the general recognition of the value of life insurance for the adequate protection of dependants against misfortune. Notable also from these statistics is the fact that in this field British companies, the leaders in 1869, have fallen far behind the Canadian and the foreign companies. Detailed analyses are given in Tables 11 to 19.

10.—Life Insurance in Force and Effected in Canada by Companies Operating Under Dominion Registration (Fraternal Insurance Excluded),¹ 1901-39.

NOTE.—Figures for the years 1869-1900 are given at p. 958 of the 1938 Year Book.

Year.	Net Amounts in Force.				Insurance in Force per Head of Estimated Population. ²	Net Amount of New Insurance Effected during Year.
	Canadian Companies.	British Companies.	Foreign Companies.	Total.

¹ For statistics of fraternal insurance, see p. 943.

² For estimates of populations upon which these figures are based, see p. 103.

³ During 1937 approximately \$85,000,000, and during 1938 approximately \$80,000,000 were transferred from insurance in force in Canada. These amounts represent mainly transfers to business out of Canada of certain reinsurances previously classed as Canadian business. They also include transfers to annuities of contracts providing for combined insurance and annuity benefits or options.

⁴ Subject to revision.
