

*The Technical Education Act.**—Under the provisions of the Technical Education Act of 1919, and amendments thereto, only the Province of Manitoba is now participating in grants, all other provinces having received their entire allotments. The ten-year period for which grants were made available by the Act of 1919 came to an end on Mar. 31, 1929. At that time, only the Province of Ontario had been paid the whole of its appropriation, and, by c. 8 of the Statutes of 1929, the other eight provinces were granted a further period of five years to earn the remainder of their respective shares. At the expiration of this extension several provinces still had substantial sums to their credit and the Act was again extended at the 1934 session of Parliament for another five-year term. At the end of this term only the Province of Manitoba had an unexpended balance and once again that Province has, by c. 8 of the Statutes of 1939, been given another five years in which to earn the remainder of its original apportionment, which, at the beginning of the fiscal year 1939-40, amounted to \$275,223.

Teaching Staffs.—The teaching staffs of day schools under provincial control in Canada consisted, in 1938, of 73,937 teachers, 19,171 males and 54,766 females. All of the increase of 4,000 teachers since 1930 has been in the male class. Table 5 summarizes statistics regarding rates of salary, except for Quebec where comparable data are not available. A separate report, "Elementary and Secondary Education in Canada, 1936-38" deals in detail with the classification of these teachers, the rates of salary paid, and their teaching experience.

5.—Teachers in All Provincially Controlled Schools, Classified According to Salary Received, for Eight Provinces, 1938.
