

The revenue of the Dominion Government in connection with water transport facilities arises from rents, leases, licences, fees, and payments for services rendered. Especially is it to be noted that no tolls are charged on Canadian canals, the revenue from these works arising from water leases, rents of land, buildings, etc.

19.—Revenue of the Dominion Government in Connection with Waterways, Fiscal Years 1939 and 1940

NOTE.—Compiled from the Annual Reports of the Departments of Transport and of Public Works.

			Totals, Dept. of Public Works.....		
				141,652	206,351

The National Harbours Board operates as a statutory corporation and the harbours and properties under its administration are shown separately in Table 20. The improvement in the financial results of the operation of these properties, since control was unified under the Board, is indicated by the increase of consolidated operating income from \$2,452,000 in 1935 to \$5,823,000 in 1940.
