

It may be stated that during the forty-year period from 1900 to 1939 crimes increased from 5,768 to 48,107 or 734.0 p.c. The increase in the population during the same period was 113.4 p.c., revealing that the increase in the crime rate was over six times that of the population.

<sup>1</sup> Included with Manitoba, since that part of the N.W.T. from which earlier returns were received was included in Manitoba by the Extension of Boundaries Act, 1912. Later figures are for the present area of the N.W.T.

**Multiple Convictions.**—The total number of convictions must not be confused with the total number of persons convicted in any one year since an increasing number of persons tried for indictable offences have been convicted for more than one offence at the same trial. The trend of such multiple convictions is interesting to students of sociology.
