¹ Includes pensions to blind persons.² Tables previously used for valuation understated the liability on annuity contracts: this exceptional amount is due to the adoption of tables in conformity with present mortality experience.³ Prior to 1937-38 general administration expenses were not segregated from other expenditures of the respective services of the Departments that were amalgamated to form the Department of Mines and Resources and the Department of Transport. The figures for 1939, 1940 and 1941 represent only Departmental administration, other administration costs being included, as in other departments, under the respective services.⁴ Prior to 1937-38 expenditures on Civil Aviation, now the Air Service Branch of the Department of Transport, were included under expenditures for the Air Service Branch of the Department of National Defence.⁵ Included under war expenditure, see p. 753.
