Subsection 2.—Provincial Departments of Agriculture*

In past editions of the Year Book, outlines of the organization and work of the various Provincial Departments of Agriculture have been published under this heading. These are not subject to wide variation from year to year and, since the present edition covers a two-year period and it is therefore obligatory to save as much space as possible, they have not been repeated here. Reference may be made to pp. 190-195 of the 1942 Year Book where this material was last published. Following are the names and addresses of the Ministers or Deputy Ministers of the Provincial Departments of Agriculture to whom the reader is referred regarding questions of provincial administration.

- PRINCE EDWARD ISLAND.—Hon. J. Walter Jones, Minister of Agriculture, Charlottetown, P.E.I.
- Nova Scotia.—Hon. John A. McDonald, Minister of Agriculture and Marketing, Halifax, N.S.
- New Brunswick.—J. K. King, B.S.A., Deputy Minister, Department of Agriculture, Fredericton, N.S.
- Quebec, Que. P. Roy, D.S.A., Deputy Minister, Department of Agriculture, 'Quebec, Que.
- Ontario.—W. R. Reek, Deputy Minister, Department of Agriculture, East Block, Toronto, Ont.
- MANITOBA.—J. H. Evans, Deputy Minister, Department of Agriculture and Immigration, Winnipeg, Man.
- Saskatchewan.—F. H. Auld, Deputy Minister, Department of Agriculture, Regina, Sask.
- Alberta.—O. S. Longman, Deputy Minister, Department of Agriculture, Edmonton, Alta.
- British Columbia.—J. B. Munro, Deputy Minister, Department of Agriculture, Victoria, B.C.

Subsection 3.—Provincial Agricultural Colleges and Schools

AGRICULTURAL COLLEGES

Nova Scotia

Nova Scotia Agricultural College, Truro.—The Nova Scotia Agricultural College is equipped to give instruction in the various branches of agricultural education. The following courses are offered:—

- 1. Farm Course.—A five-month farm course is designed to give students condensed vocational training, combining demonstration, practice and study, in preparation for life on the farm and for citizenship.
- 2. Degree Course.—This course covers the first two years of the regular fouryear degree course in agriculture, fitting the student for the farm, or for a position in technical or commercial agriculture.
- 3. Short Courses.—These are arranged from time to time, covering such subjects as grading of eggs and dressed poultry, beekeeping, farm mechanics, home crafts, etc.
