

**Detailed Imports and Exports.**—Detailed statistics of all commodities of any importance imported into Canada from all countries, from the United Kingdom and from the United States during the calendar years 1941 and 1942 are given in Table 16, while corresponding statistics for domestic exports appear in Table 17.

War-time restrictions prohibit the publication of statistics of trade of individual items by countries and the figures of imports and exports between Canada and the United Kingdom and the United States are, therefore, confined to sub-group and group totals until such time as the restrictions in publication are removed.\* In the case of exports of non-ferrous metals, only the totals of precious metals and the group total can be given.

\* Since this chapter was prepared, the restrictions referred to have been lifted and the 1945 Year Book will give individual figures.

### 16.—Principal Imports into Canada for Consumption from All Countries, the United Kingdom and the United States, 1941 and 1942

NOTE.—Comparable totals for the year 1940 and itemized figures for the pre-war years 1937-39 will be found at pp. 482-487 of the 1942 Year Book. War-time restrictions preclude the publication of details for years since the outbreak of war but see footnote above.

| Item  | All Countries  |                | United Kingdom |              | United States |               |
