Table 7 of this Section has shown commercial failures in Canada by provinces and branches of business for the latest year. Since there was no 1943 edition of the Year Book published, subdivisions of the 1942 figures are not shown owing to pressure of space. The following table gives the data for 1943 and the reader is referred to the separate report on Commercial Failures for 1942 published by the Dominion Bureau of Statistics, where corresponding information for that year is given. It is felt that the main interest of readers in this connection is in the latest data and not in year-by-year comparisons.
