¹ Excludes electric lines.² Work service excluded.

Commodities Hauled.—Total tonnage of freight hauled by the railways during 1942 was by far the greatest handled in any year. It amounted to 134,674,537 tons as compared with 116,808,091 tons in 1941 and 84,631,122 tons in 1939. This was an increase over 1939 of 59 p.c. and over 1928, the previous peak, of 13.5 p.c., but due to longer hauls the ton miles increased by 78 p.c. over 1939 and 35 p.c. over 1928.
