

service stations. A sales tax on gasoline is also levied by each province,* the rates being 10 cents per imperial gallon in the three Maritime Provinces, 8 cents in Quebec and Ontario and 7 cents in the four western provinces. The more important sources from which provincial revenues from motor-vehicles are derived are shown in Table 6. Dominion Government revenues from import duties, excise and sales taxes are not included.

¹ Dominion Government paid \$9,372,589 of total, all provinces except Alberta receiving subsidies to bring revenue up to 1941 revenue. Some of this was not paid until after end of provincial fiscal years. Alberta's revenue was above 1941 revenue. ² Included with registration revenues. ³ Tax not applicable. ⁴ Incomplete, see footnote 2. ⁵ Included with trucks. ⁶ Incomplete, see footnote 5.

Motor Carriers.—The lack of statistical information in regard to the increasing amount of passenger and freight traffic on the highways of Canada led to the institution of a census of motor carriers in 1941. Statistics of capital, revenues, personnel, wages and equipment are given in Table 7. The carriers were divided into two main classes: (1) passenger and (2) freight, and each of these was subdivided into two sub-classes: (a) carriers with revenues less than \$20,000, and (b) carriers with revenues of \$20,000 or over. Bus companies handling urban traffic exclusively were compiled as a class. Many street railway systems operate motor buses, but the statistics of such systems are included in electric railway statistics

* As from Apr. 30, 1941, there is a Dominion tax of 3 cents per gallon in addition. For details of gasoline rationing in Canada, placed in operation on Apr. 1, 1942, see p. 523.

† Statistics of traffic carried are given at p. 603, under Section 4, Road Traffic. For statistics by provinces see "Motor Carriers, Freight and Passenger", obtainable from the Dominion Statistician, Ottawa, at 10 cents per copy.
