outbreak of war has been the increase in the number of overseas broadcasts. These are picked up at the CBC short-wave receiving station at Ottawa and re-broadcast from there or recorded for later inclusion at more suitable times.

Material on the use of radio in the public schools appears on pp. 878-879 of the 1942 Year Book.

7.—Classification of CBC Programs for a Representative Month (November, 1942)

 ${\tt Nore.}$ —Dashes in this table indicate that no commercial programs were reported under these particular sub-items.

Subsection 3.—Finances

The Corporation's income for the year ended Mar. 31, 1943, totalling approximately \$5,000,000, showed a satisfactory increase of about \$400,000 over the previous year. Expenditures on operation and on capital account remained well within budget estimates. The \$503,399 outstanding on loans from the Dominion Government at Mar. 31, 1942, was paid off in full during the year. It may be said that the whole of this amount was a prepayment. The Corporation's cash position continues to be most satisfactory.
