<sup>1</sup> The numbers given in this column refer to the International List of Causes of Death, as revised in 1938 by the International Commission on the Classification of Diseases and Causes of Death. This classification, in its detailed, intermediate or abridged form, is accepted by almost all civilized countries.

**Deaths in Canadian Cities and Incorporated Centres.**—The proportion of deaths to the population in the cities of Canada listed in Table 20 remained fairly constant at about 1 p.c. throughout the period 1926-40. Taken on the basis of resident deaths to resident population the single years shown reveal proportions of 1 p.c. of total deaths.
