9.—Acreages, Yields and Values of Principal Field Crops Grown in Canada

NOTE.—Comparative figures for the Dominion as a whole for the years 1908-28 are given in the 1929 Canada Year Book, pp. 230-232 and for 1929-38 in the 1939 Canada Year Book, pp. 203-204. For certain figures for earlier years on acreage, production and value, see Statistical Summary of the Progress of Canada at the beginning of this volume. For the majority of crops, the long-time average covers the years 1908-40.
