

CHAPTER XII.—MINES AND MINERALS*

CONSPECTUS

	PAGE		PAGE
SECTION 1. MINERAL LANDS ADMINISTRATION AND MINING LAWS.....	293	SECTION 4.—continued	
Subsection 1. Mining Laws and Regulations on Dominion Lands.....	294	Subsection 3. Iron.....	312
Subsection 2. Provincial Mining Laws and Regulations.....	294	Subsection 4. Lead.....	314
SECTION 2. SUMMARY OF GENERAL PRODUCTION.....	295	Subsection 5. Magnesium.....	314
Subsection 1. Government Control of Metals and Fuels in Wartime.....	295	Subsection 6. Nickel.....	315
Subsection 2. General Statistics of Mineral Production.....	296	Subsection 7. Metals of the Platinum Group.....	316
Subsection 3. Provincial Distribution of Mineral Production.....	302	Subsection 8. Pitchblende Products....	316
SECTION 3. INDUSTRIAL STATISTICS OF MINES AND MINERALS—CAPITAL, LABOUR, WAGES, ETC.....	306	Subsection 9. Silver.....	316
SECTION 4. PRODUCTION OF METALLIC MINERALS.....	309	Subsection 10. Zinc.....	317
Subsection 1. Copper.....	309	SECTION 5. PRODUCTION OF FUELS.....	317
Subsection 2. Gold.....	310	Subsection 1. Coal.....	317
		Subsection 2. Natural Gas.....	320
		Subsection 3. Petroleum.....	321
		SECTION 6. WORLD PRODUCTION OF MINERALS.....	325
		SECTION 7. PRODUCTION OF NON-METALLIC MINERALS (EXCLUDING FUELS).....	325
		SECTION 8. PRODUCTION OF CLAY PRODUCTS AND OTHER STRUCTURAL MATERIALS.....	328

Historical Sketch.—A short historical outline of the development of the mineral industry in Canada is given at pp. 309-310 of the 1939 Year Book.

Geology and Economic Minerals.—A special article on this subject appears at pp. 3-14 of the 1942 Year Book.

Statistics of Mines and Minerals.—The compilation and publication of statistics concerning mines and minerals in the Dominion is carried out by the Mining, Metallurgical and Chemical Branch of the Dominion Bureau of Statistics, which works in close co-operation with the Mines Departments of the various Provincial Governments, collecting the data in collaboration with these Departments. Questionnaires sent to those engaged in mineral industries are designed to meet the requirements of both the Dominion and the provincial authorities, thus eliminating duplication of labour.

More detailed information on the mineral production of Canada is given in the various reports issued by the Mining, Metallurgical and Chemical Branch of the Dominion Bureau of Statistics.*

Section 1.—Mineral Lands Administration and Mining Laws

The mineral lands of Canada, like other Crown lands, are administered by either the Dominion or the Provincial Governments. The Dominion Government administers the mineral lands of Yukon and the Northwest Territories as well as those in all Indian Reserves and in National Parks; all other mineral lands lying within the boundaries of the several provinces are administered by the respective Provincial Governments.

*Except where otherwise noted, this chapter has been revised in co-operation with W. H. Losee, B.Sc., Chief of the Mining, Metallurgical and Chemical Branch, Dominion Bureau of Statistics. A complete list of the publications of this Branch appears in Chapter XXX.
