

6.—Detailed Mineral Production of Canada, by Provinces, 1943

NOTE.—Quantities and values of minerals produced during 1943 in Yukon were—gold, 41,160 fine oz., \$1,584,660; silver, 52,348 fine oz., \$23,690; tungsten concentrates, 12,083 lb., \$10,122; lead, 195,715 lb., \$7,347; total, \$1,625,819; and in the Northwest Territories—gold, 59,032 fine oz., \$2,272,732; silver, 13,250 fine oz., \$5,996; natural gas, 1,500 M cu. ft., \$335; petroleum, 293,750 bbl., \$400,201; tungsten concentrates, 720 lb., \$729; total, \$2,679,993. Wartime restrictions preclude the publication of data for pitchblende products found in these areas. For the Dominion totals of individual minerals, see Table 2. Dashes in this table indicate that no production was recorded. The ton referred to is the short ton of 2,000 lb.
