¹ Percentages over 1,000 not calculated, being too high for comparison.

² Less than \$1,000.

Imports from Principal Countries.—The percentage of imports from countries from which Canada obtains important industrial materials is tending to rise owing to increased industrial activity in the Dominion. Particularly notable are the increases in the amounts purchased from the United States, Mexico, Netherlands Guiana and Argentina. In Table 5 will be found the values of imports from all important countries in recent years.
