Detailed Imports and Exports.—Detailed statistics of all commodities of any importance imported into Canada from all countries, from the United Kingdom and from the United States during the calendar years 1940-43 are given in Table 15, while corresponding statistics for domestic exports appear in Table 16. War-time restrictions, imposed in 1942, prevented the publication in the 1942 and 1943-44 Year Books of detailed figures for the United Kingdom and the United States. The present series therefore links up with Tables 17 and 18, pp. 430-461, of the 1941 Year Book, where figures for 1936-39 appear.
