NOTE.—Certain phases of Dominion Government activity, such as the operations of the International Joint Commission and certain scientific activities of the Department of Mines and Resources were dealt with in this Chapter of the 1930 edition of the Year Book (pp. 1014-17). These branches of the Miscellaneous Administration have not undergone wide change and, therefore, the material has not been republished since that time.

## Section 1.—Public Lands

In Table 1, summarizing the land area of Canada, items 3, 4 and 5 are obtained from Dominion Government sources and items 1, 2 and 7 from Provincial Government sources. In the majority of cases the area of provincial lands (item 6), as calculated by balancing the figures, agrees with the area as estimated by the Provincial Departments concerned. Thus, any differences reported from year to year in the area of lands alienated or in process of alienation are compensated for by the adjustment of lands still remaining under the Crown in the right of the provinces concerned.
