The Journal is to be found in the leading scientific libraries of the world. From its inception in May, 1929, to the end of Volume 12 in June, 1935, the Journal was issued in a single volume each month. Copies of these 12 volumes unbound are available at \$1.50 each. An index of volumes 1-12 is available at \$1. From July, 1935, to December, 1943, the Journal was published in four sections, each section being paged separately. Sections A and B were bound in one cover each month, and Sections C and D were likewise bound together. The issues from July to December, 1935, were included in Volume 13, *Price \$2*. Volume 14 contains the Journals issued in 1936 and one volume has been published each year since then. Each of the six sections now appears under its own cover. Single numbers of the Journal are priced at 50 cents each; the yearly subscription rates are: one section \$2; two sections \$3; three sections \$4; four sections \$5; any five or all six sections \$6.
